

HSZSolutions™ – Lab Safety Starter Pack (FREE)

Read Me + License Agreement (v1)

Thank you for downloading the HSZSolutions™ Lab Safety Starter Pack.

This free bundle provides essential tools to help labs, schools, and SMEs strengthen daily safety practices and improve basic documentation.

This pack is designed to help you:

- Promote safety awareness
- Organise critical emergency information
- Support basic ISO/OSHA-aligned practices
- Improve minor incident documentation
- Standardise simple corrective action tracking

What's Included

1. **Chemical Spill Response Poster (PDF):** Color-coded guidance for minor chemical spills. Ideal for wet labs, teaching labs, and small research environments.
2. **Lab Safety Rules Poster (PDF):** Clear behavior reminders to reinforce safe conduct in any laboratory setting.
3. **Emergency Contact Form (PDF or DOCX):** Editable sheet for listing internal and external emergency numbers.
4. **CAPA Checklist – Lite (PDF):** A simple corrective/preventive action tracker for small findings and observations.
5. **Incident Checklist – Lite (PDF):** A basic form to record minor incidents or safety observations.

How to Use the Starter Pack

- Print and display the posters in visible areas (entry points, bulletin boards, training rooms)
- Update the Emergency Contact Form and post it near phones, exits, and chemical storage areas
- Use the CAPA Lite checklist to track follow-up actions
- Use the Incident Lite checklist to capture observations or minor events
- Upgrade to HSZSolutions™ Lab Pro Kits for:
 - Full templates
 - SharePoint + Google Workspace digital systems
 - Advanced checklists
 - Complete incident workflows
 - Audit-ready ISO/OSHA documentation
